Position Announcement

Summer Internship

St. Lawrence County Soil & Water Conservation District is seeking an enthusiastic, self-motivated intern to perform a variety of duties related to natural resource conservation.

General Description of Position

Learn principles and practices of natural resources conservation on private and public lands by assisting Conservation District Staff. Work with a variety of people including the agricultural community, schools, local governments and private landowners. Focus of internship will be on monitoring of wetland easements and completing North Atlantic Aquatic Connectivity Collaborative assessments on stream crossings throughout the County.

Duties Include, but not limited to, assisting with the following:

- Organizing, scheduling, record keeping, and onsite evaluations of wetland easements throughout St. Lawrence County.
- Assist with collection of stream crossing data (this will include wading into streams).
- Education and public outreach programs.
- Supporting the Agricultural Environmental Management Program by collecting and completing data and maps.
- Field work including but not limited to soil sampling, tree inventorying, etc.

Salary and Benefits

\$10.40 per hour, 400 hours, flexibility in setting schedule

Helpful knowledge, skills, and abilities

Ability to interpret maps and spreadsheets. Ability to compile data and prepare reports. Intermediate personal computer skills. Good verbal and interpersonal communication skills. Good organizational and time management skills. Willingness to work outside in all weather conditions and get your hands dirty. Dependable. Enthusiastic. Willingness to learn.

To Apply

Complete online application located at <https://goo.gl/forms/0c3CsmARnMbvGI243> and send resume with references to conservation@slcswcd.org by **4:30 pm, May 4, 2018**. Feel free to email us to request the link to be emailed for the application.

Applicant must complete online application and submit resume with references to be considered.
