## **2021 No-till/Inter-seeder Rental Reimbursement Program**

The SLC SWCD is offering a no-till/inter-seeder rental reimbursement program again this year to help offset the costs of renting elsewhere. There will be a reimbursement of \$19/acre cost-share rate with a maximum of 30 acres per accepted applicant.

Due to funds, applicants' fields will be ranked and selected based on several factors including the primary use of equipment, seed type, method, and field properties such as proximity to waterbody, highly erodible land, and slope.

Interested applicants should fill out an application (found on [www.slcswcd.org](http://www.slcswcd.org)) and email applications to [jevonnah@slcswcd.org](mailto:jevonnah@slcswcd.org). If unable to email feel free to call our office 315-386-3582 and apply over the phone. Please note that we have limited staff in the office and may be in the field, but we are monitoring and checking all calls and email and we will get back to you.

Applications must be received by April 23<sup>rd</sup> to allow staff to rank and select sites in time for producers to be able to do a successful spring planting. Ideal planting dates for spring cool season plants are May 1 through May 15<sup>th</sup> and for warm season plants dates are June 15<sup>th</sup> through June 20<sup>th</sup>. If there are still funds available after, applications will be accepted again for a fall planting and they will need to be received by July 20<sup>th</sup> for ranking.

Please feel free to call or email us with any questions.
